TLINGIT & HAIDA HEAD START TB Risk Assessment SCREENING RESULTS

Date: _____

_____, has been screened for TB Risk.

The results indicate: (Please circle)

- No further testing needed (all answers negative)
- Further TB screening needed (if a yes response)

Questions for family to answer:

- Has a family member or contact had tuberculosis disease? YES NO
- Has a family member had a positive tuberculin skin test result? YES NO
- Has the child travelled in a high risk country (countries other than the U.S., Canada, Australia, New Zealand, or Western European Countries). YES NO
- Was the child born in a high-risk country (countries other than the U.S., Canada, Australia, New Zealand, or Western European Countries). YES NO
- In Alaska, TB is more common in the Yukon Kuskokwim and Norton Sound regions.
 - Does the child live in one of these regions? YES NO
 - Has the child recently moved to or from one of these regions? YES NO
 - Has the child recently traveled to one of these regions? YES NO

If family answers with a "Yes" response the screening is **positive** and a **Tuberculosis (TB) test should be administered**. If all answers are negative no further testing is indicated.
